

eSIM Installation

I have only one device, enter it manually.

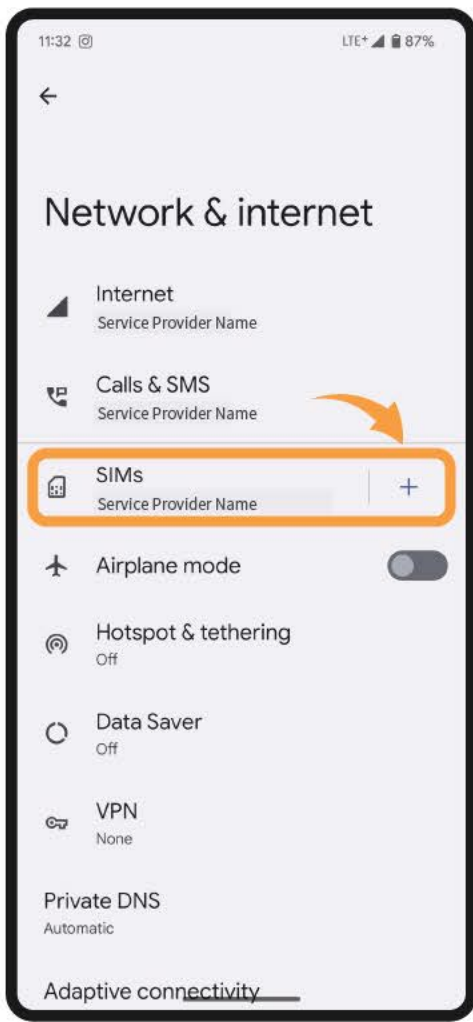

Before Going Abroad Installation

The eSIM installation requires a network. It is recommended to find a stable WiFi or mobile data to install eSIM before departure.

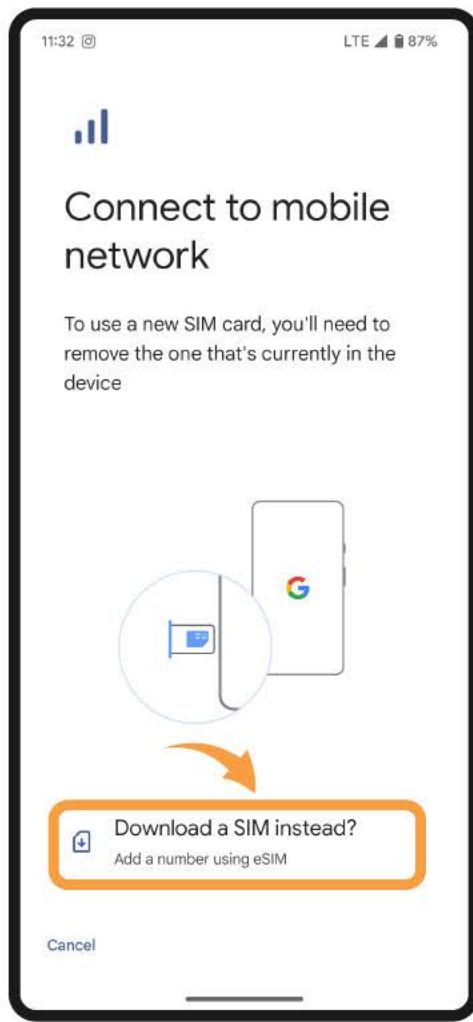

1 Go to Settings > Network & Internet

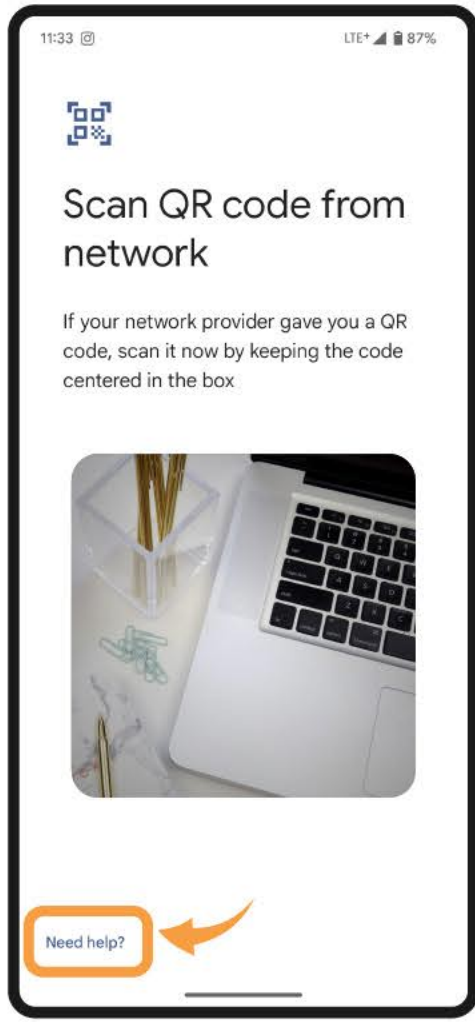

2 Tap the '+'

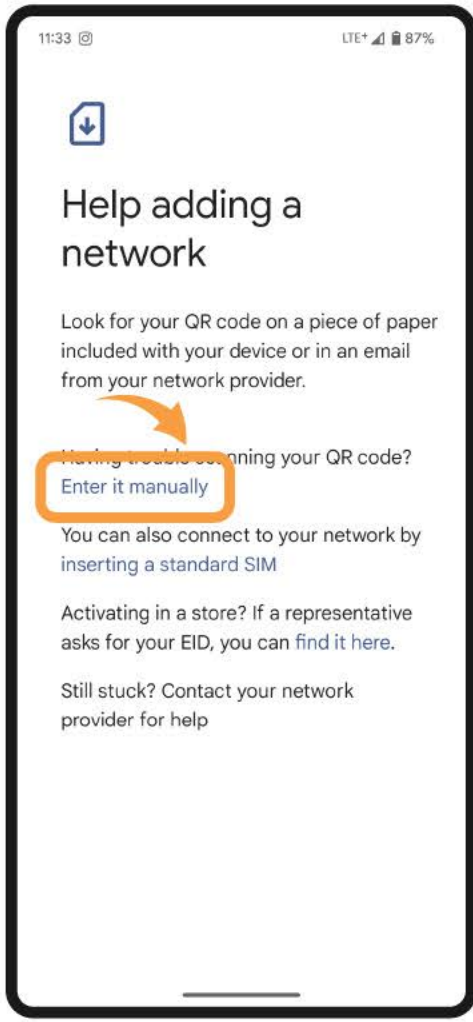

3 Tap the [Download a SIM instead?]

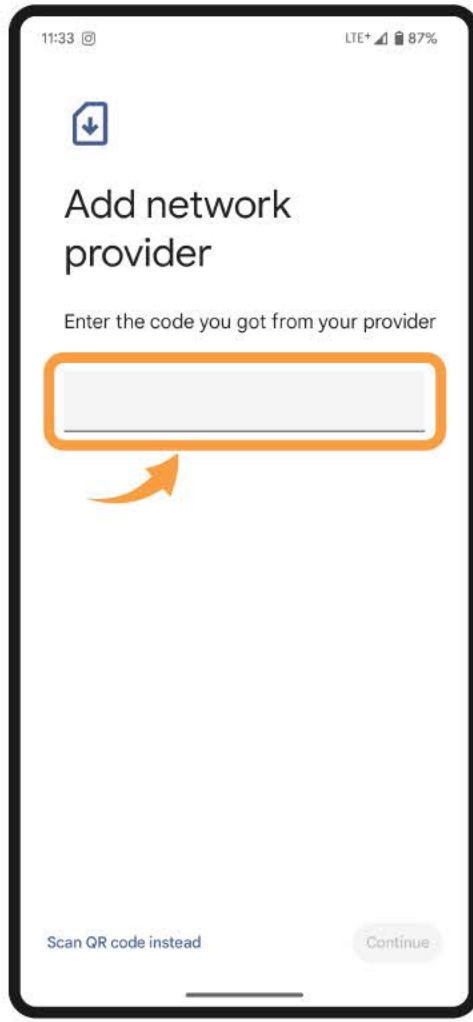

4 Tap the [Need help]

5 Tap the [Enter it manually]

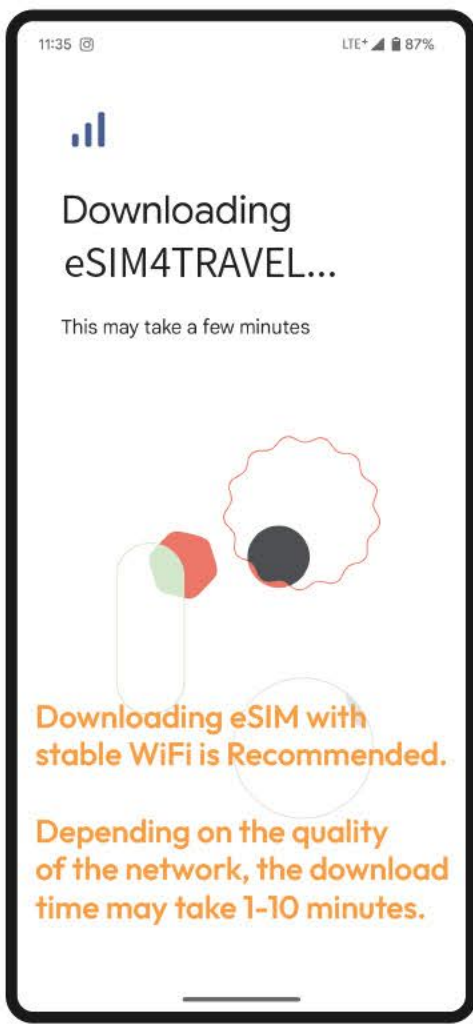

6 Enter the activation code we provided

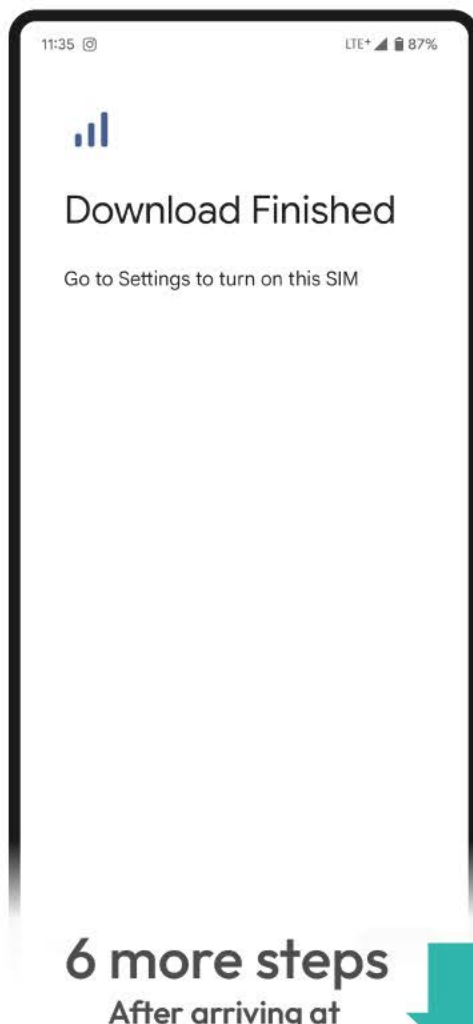

7 Tap on [Download]

8 Checking on network and download eSIM

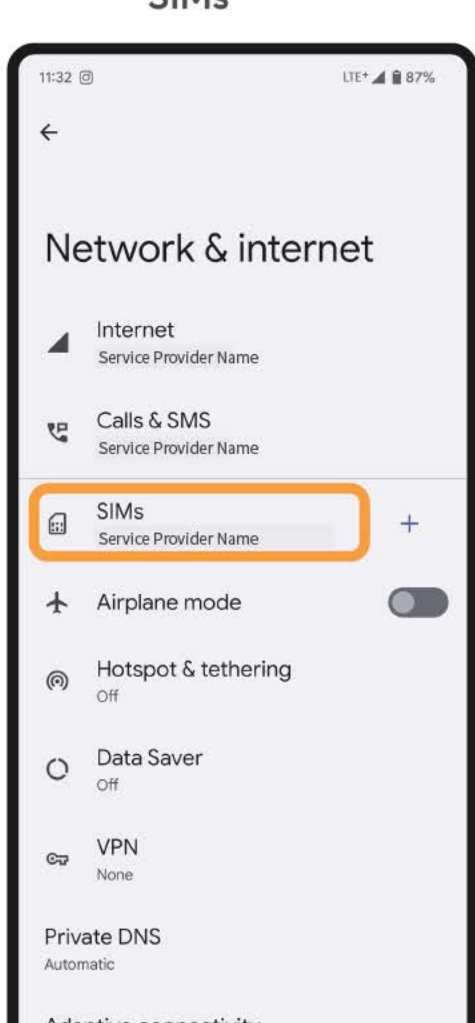

9 Installation is successful

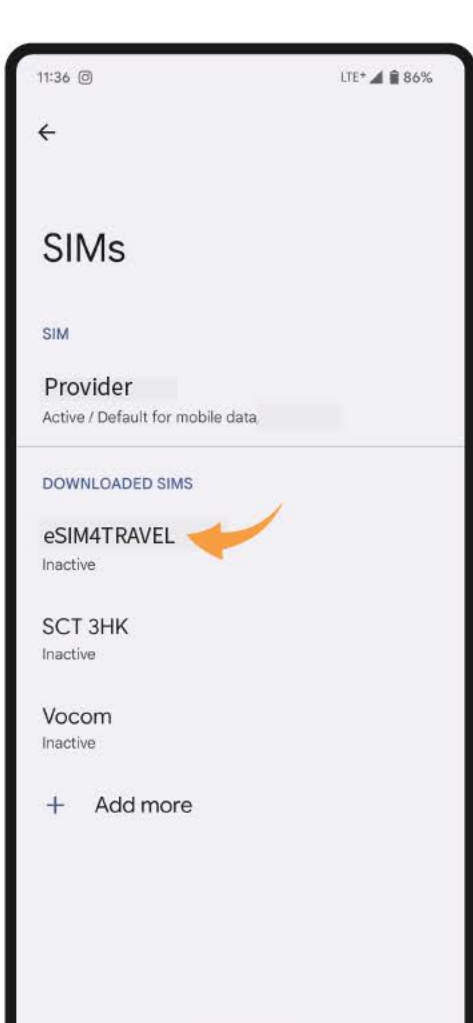

6 more steps
After arriving at the destination

Arrive the Destination Switch to eSIM and turned on data roaming

10 Go to Settings > Network & Internet > SIMs

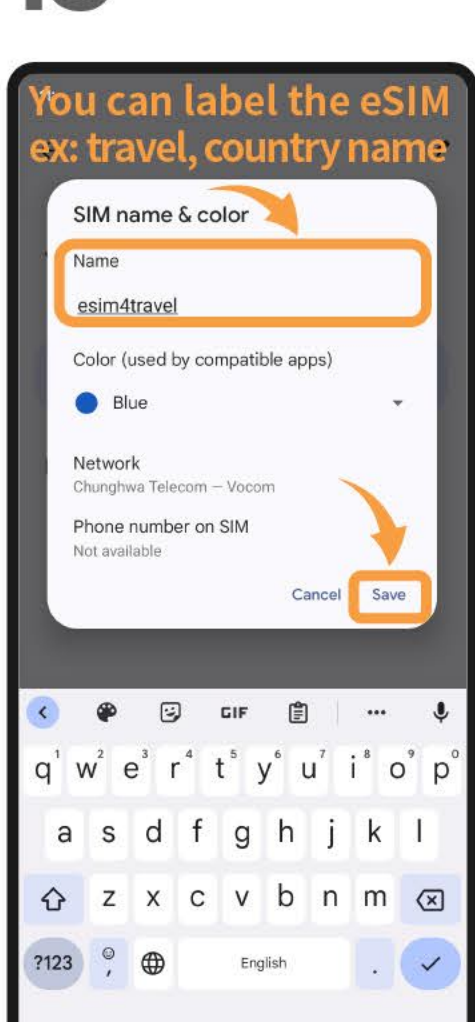

11 Select the new eSIM

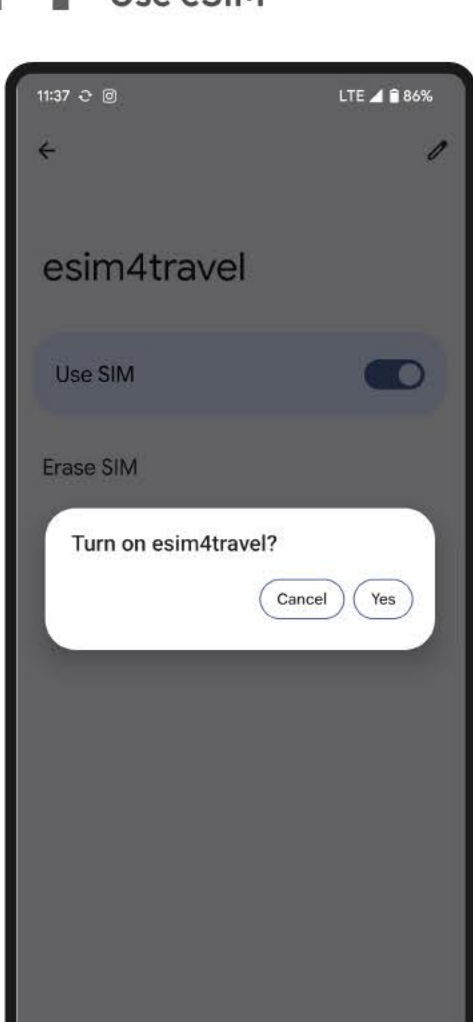

12 Tap on the pencil icon

13 Label the eSIM

14 Toggle the slider to Use eSIM
